Full Stack Software developer and new mom with a passion for designing responsive web applications with a combination of technical ability and creativity.

EXPERIENCE

SOFTWARE DEVELOPER @ COGNIZANT (PROACTIV CONSULTANT)

JANUARY 2021- MAY 2023 | REMOTE

- Programmed and developed several reporting applications to track client ROI, product availability, subscriptions, and monthly returns using **RESTful APIs, Node.js, Java, and MySQL (AWS-RDS)**
- Cut database costs by converting **Oracle SQL** queries to **PostgreSQL**
- Developed and managed the implementation of ProActiv's data migration from Salesforce to Kibo eCommerce (SaaS) platform
- Collaborated with multi-disciplinary teams of product owners, developers, support-teams, and stakeholders during eCommerce transition to maintain a seamless customer experience

FRONTEND DEVELOPER @ SELF-EMPLOYED (FREELANCE)

MARCH 2020- PRESENT | SEATTLE, WA

- Design UI/UX framework and developed responsive websites for clients using **React, HTML, Javascript, CSS, Sass, and Bootstrap**

TECHNICAL RECRUITER @ META (FACEBOOK)

JANUARY 2018- NOVEMBER 2018 | SEATTLE, WA

- Sourced and recruited research-led engineers in the field of machine learning/artificial intelligence to support recruiting needs of over 20+ ML/AI centralized teams

TECHNICAL RECRUITER @ AMAZON

MAY 2013- DECEMBER 2017

- Programmed user script tampermonkey in **Javascript** and **HTML** to export interview summary and improve hiring manager feedback/candidate response time
- Created/programmed highly interactive excel dashboards for metrics
- Sourced/recruited Software Engineers for Alexa Smart Home, EC2, Alexa for Business, North America Fulfillment Center (NAFC) IT positions, and implemented data-driven reports via **MySQL/OracleDB**
